A RESOLUTION TO ADOPT SURETY AND PERMIT FEE SCHEDULES FOR THE GENERAL UTILITY/ STREET CONSTRUCTION AND REPAIR (GUS) PERMIT

Whereas, The Bessemer City Council, in order to adopt uniform standards and procedures for utility and street work within public right-of-way and easements, did approve Ordinance 360; and

Whereas, Ordinance 360 provides that surety and permit fee schedules shall be set by resolution of the Bessemer City Council

Now, therefore be it resolved by the Bessemer City council that the following surety and permit fee schedules are hereby adopted:

General Utility/ street construction and Repair (GUS) Permit Surety Schedule

- 1) **Major Street Work/ Multiple Projects:** Major street work generally means extensive street excavation to repair, install, or replace gas mains, fiber optic, CATV, telephone, or electric lines. Major Street work impacts more than one property and may encompass an entire block or more. Required surety: 100% of the cost estimate for the entire project. Documentation of the cost estimate is also required. For work on the US-2 right of way, the applicant must obtain the proper permits from Michigan Department of Transportation and no surety is required by Bessemer.
- 2) **Minor Street Work:** Minor street work generally means service for a localized area (often just a single property), and usually involves service lines (water, sewer, gas, electric, etc.) as opposed to mains. Minor street work includes service line work in paved alleys and streets only. Required surety: \$5,000. For work on the US-2 right of way, the applicant must obtain the proper permits from Michigan Department of Transportation and no surety is required by Bessemer.
- 3) **Minor Sidewalk/ Curbing/ Driveway work:** This category is for the minor patching, repair, or replacement of curbs, gutters, and/ or driveways within the right of way. Sometimes this may include service lines if the work doesn't extend into the street or paved alley. This permit may be issued to a homeowner. Required surety: \$250*. For work on the US-2 right of way, the applicant must obtain the proper permits from Michigan Department of Transportation and no surety is required by Bessemer.

*While the GUS Permit ordinance technically prohibits company or personal checks for sureties, as a matter of policy, the city may opt to accept local checks for sureties in this category only.

Permit Application Fee Schedule

Major Street Work/ Multiple Projects: \$25 + .25% of the cost of the project capped at \$500

Minor Street Work: \$25

Minor Sidewalk/ curbing/ driveway work: \$10

Note that work done for the city does not require a permit.
